i1^{PreK} Functional Deliverables

Complete | Comprehensive | Focused on Managing Individual and Chain of Schools

A WEB-BASED APPLICATION AVAILABLE ON SAAS (SOFTWARE AS A SERVICE) AND INSTALLED PLATFORM.

Parent Portal

Parent portal will be a window where the parent through the login mechanism will be

able to view his child's information such as curriculum planner, event planner, meal menu, parents suggestion box, student picture gallery and other activities information. Parent portal will display general and school information related to student such as :

- ◆ **Profile:** Displays students personal information
- ◆ **Kid Book:** Displays student achievements and progress report.
- ◆ **Gallery:** Displays child's picture albums and videos of their kids.
- ◆ **Schedule:** Parents can view the curriculum planner, event planner and meal menu of their kids.
- ◆ **Interact:** Parents are provided mail box and suggestion

Teacher Portal (Optional)

This portal will provide the information about the teacher, customized as per their roles, such as, Class Schedule, Announcements, Notice, Leave & Attendance report, Student Performance and login mechanism through which teacher will enter in the their own personal portal.

Teacher portal will display various information for teachers such as:

- ◆ **My Attendance:** Their real time attendance on their portal
- ◆ **My Schedule and Time Table:** The time table and other schedule on their portal.
- ◆ **Student Activities/Achievement/Behavior:** Teachers can view students related information.
- ◆ **Course curriculum:** Availability of the curriculum for any class.
- ◆ **Apply for Leave:** Leave application can be submitted and sent for desired approval (if any).

CEO/Branch Head /Top management portal

This portal would provide information about the Key Performance Indicators of the schools from management perspective for example:

- ◆ **Performance Reports:** Student Performance Report, Staff Performance Report, Notices and Information etc.
- ◆ **Admission related:** Seats available vs. Applicants Reporting (School wise and Class wise), Average Academics Score of Applicants (School wise and Class wise) etc, Number of Admissions happened over a duration across schools.
- ◆ **Financials Related:** Income portfolio of the Schools (Drill down and year wise trends), Total Fee Due on on date (School level and drill to student level), Budgeted vs. expense (School level drill down to expense head), Asset Portfolio (School wise drill down to asset level) etc..

Academic Administration made easy...

- ◆ **Managing Classes, Sections, Subjects, Teachers (Planning Academics)**
